Adjustable wall packs

AHWP adjustable full-cutoff LED wall packs bring configurable exterior lighting to entrances, walkways, building facades and perimeter areas. Each model combines selectable wattage and three color temperatures with an adjustable fixture angle. Choose among seven models to match light output, visual tone and aiming to residential, commercial or industrial sites.

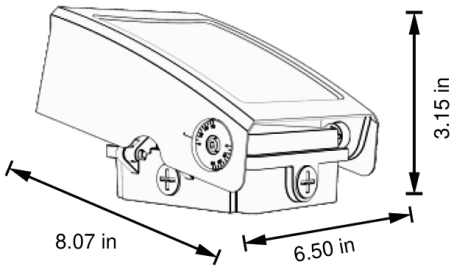

Key Advantages

- Choose 4-100W settings across models; the 100W model reaches 12,000 lumens.
- Choose 2700K, 4000K, or 5000K to set the exterior tone.
- Triac dimming and 120-277V input suit varied project electrical plans.
- IP65-rated aluminum construction suits exterior entries, walkways, and building perimeters.

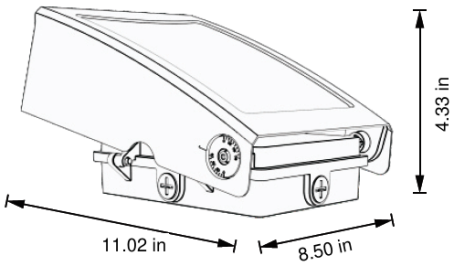

Dimensions

100W

Accessories

Enhance the functionality of your lighting fixture with optional accessories designed for convenience and performance. These accessories complement the fixture's design and support a variety of lighting applications.

Battery Backup

Ensures uninterrupted lighting during power outages, providing added safety and reliability.

Motion Sensor Unit

Optimizes energy efficiency by activating the fixture only when motion is detected.

Dimming: Triac | Surge protection: 2KV | IP rating: IP65 | Housing: Aluminum | Lens: Polycarbonate
